Form Reference	SUSTAINABILITY POLICY	Review Date:	Revision Date:
OP 0035		12/03/2017	12/03/2019

1. Aim

This sustainability policy statement provides a framework for sustainable and responsible operations, activities, and practices across Infraworks. It aims to demonstrate leadership as a professional association in sustainable development and to work towards developing a sustainable Infraworks that will foster sustainability values and principles across its workforce.

2. Policy statement

Infraworks is committed working towards sustainable development and establishing, promoting and maintaining a culture in sustainability and environmental and social responsibility within its staff and workers. Infraworks Management will foster governance and leadership in sustainability and work collaboratively to avoid and minimise adverse impacts of our activities on the environment and society, reduce the Infraworks carbon footprint and work towards having a more sustainable business.

3. Policy principles

The following principles underpin the sustainability policy statement in undertaking Infraworks commitment towards sustainability:

- Leading and influencing by example by implementing sustainability actions detailed in this policy;
- Demonstrate good governance by incorporating sustainability principles into all Infraworks activities and decision making processes;
- Continue to identify and implement alternative business practices to minimise Infraworks environmental and carbon footprint;
- Creating and promoting an environmentally sustainable and responsible culture across our workforce by leading by example;
- Engaging with our suppliers and stakeholders to improve the sustainability performance of our supply chain;
- Enhancing the communities in which we operate by acting sustainably;
- Pursuing continual improvement in corporate responsibility and sustainability management and performance;
- Achieving objectives and implementing actions identified across the following sustainability priority areas: energy, waste, water, social and economic, office and venue buildings, procurement, HR and administration. Sustainability policy statement objectives and actions are outlined in HSE Plan

4. Accountability

Senior Management are accountable for the implementation of this policy.

Michael Olsen

Infraworks CEO
